DECORATIVE FILMS

Made in the USA and  
enjoyed worldwide.

Established in 2002, Decorative Films, LLC is a manufacturer and distributor of ready-to-install window films for design, solar control, and privacy applications. After more than 40 years' experience in the glass coating and solar control window tinting industries, we leveraged our knowledge to launch our own line of products—including SOLYX®, SimGlass®, UltraCool®, UltraSafe®, and UltraGlare® films. Today, we continue to supply the broadest selection of window films at the most competitive prices.

From the very beginning, owners Peter and Glenda Huyser and Managing Director Charl Berning have remained focused on finding ways to better serve our customers. Decorative Films' product innovation, customer service, quality standards, manufacturing efficiency, and diverse product lineup have helped us grow into an industry leader—with a sales and installation network of over 2,850 dealers in the USA, and major distributors in Canada, the United Kingdom, Europe, the Middle East, India, Australia, and South Africa.

At Decorative Films, we're continually inspired to develop new techniques and improve our production capabilities. We carry nearly 1,000 SKUs and stock more than 51,000 rolls of film, and our customer list includes household names like Microsoft, Amgen, Bank of America, Paramount, ABC, FOX, and Disney.

No matter what design, solar control, or privacy challenge you face, we have a film to fix it. Our films offer year-round beauty, lifelong durability, and nearly limitless design possibilities—all delivered quickly and with cost-effective pricing. At Decorative Films, we see windows in a whole new light. And decade after decade, we're working hard to help our customers do the same.

# CUSTOM FILM

At Decorative Films, we know that some projects and spaces demand a one-of-a-kind design. Our Solyx iQ custom-made films give you that freedom. Available exclusively to commercial and wholesale customers, Solyx iQ lets you start from scratch and create something truly unique.

Whether you need a gradient film for semi-privacy, a full-color centerpiece, or something entirely original, we work closely with you to develop your vision and produce it using the highest quality materials available. It's the industry standard—delivered with a custom design that's anything but standard.
